# THE BLUE RIBBON LIST

## OF THE U. S. Department of Agriculture

### World's Finest Daffodils

### 1953

Listed herein we offer the finest in daffodils, 942 varieties including 98 outstanding new additions to our list; emphasized for your convenience in CAPITOL letters. On page 9 you will find a list of Rock Garden and Pink types which are not to be recognized as such under the R. H. S. Classifications. Stocks of everything listed will be dug this year; but to avoid disappointments please place your orders early. We have in addition 339 other varieties planted down for 2 years, these will re-appear in our 1954 list. If interested in varieties not listed we will gladly quote and dig, or obtain from a reliable source if order is received before 31 August. All these 1281 varieties can be seen growing in our plantings here at Gloucester, Virginia. We have approximately 21 miles of daffodils as measured by the row.

Unlike everything else the price of daffodil bulbs continues a downward trend; especially the pinks and high priced novelties. We hope our friends plus old and new customers, will realize that if our prices are out of line on some items offered by Dutch and English competitors or those who handle foreign grown bulbs, that we grow our own from imported stocks and pay AMERICAN WAGES to our help and are thus able to guarantee all our bulbs to be true to name. In our Daffodils on Parade, printed in July, we give full descriptions and other valuable information on all new importations (which will have bloomed in the spring) and many of the most popular older types.

All bulbs undergo a very thorough field inspection each spring, and again in the fall while in storage by the highly efficient State Inspectors and are certified as free from disease before any shipments are made. The grower of these fine varieties has had many years experience raising daffodils, including 20 years as farm manager for one of the largest Dutch firms; who at the peak of their activity in this country had over 200 acres planted in daffodils.

#### PRICES

Prices as listed are per bulb, and are for top sized doublenose. Do not be led astray by cheap offers which are usually for small inferior bulbs. On quantity purchases we allow the following discounts: 12 bulbs of a variety for the price of 10 — 50 bulbs for the price of 40 — 100 bulbs for the price of 70. Write for quotations on larger quantities. On orders under \$5.00 please include 50 cents additional to cover handling and postage and \$1.00 on all orders to points west of the Mississippi. A 5% discount in bulbs (our selection) is given on all orders received before 31 July. We start shipping as soon as fall inspection is completed, usually about 15 September. Check with order please, or if desired, they will be sent C. O. D.

Reference: Bank of Gloucester, Gloucester, Virginia.

\* following a variety indicates it has won a coveted award at the famous English or Dutch daffodil shows.

#### QUANTITY PRICES

On all varieties we give 12 bulbs for the price of 10 — 50 bulbs for the price of 40 — 100 bulbs for the price of 70. Example — Scarlet Leader, 1 bulb \$.40 — 12 bulbs \$4.00 — 50 bulbs \$16.00 — 100 bulbs \$28.00.

## MIXTURES

**SPECIAL NOVELTY** — An unexcelled mixture containing over 500 of the truly distinctive varieties listed in this folder. By the law of averages you should get 40 to 50 and can get up to 100 varieties in 100 bulbs. Planted in a cutting bed they will give ample and diversified blooms for the home over a long period each spring. Each year we discard around 100 varieties to make room for new and improved types. These discards are added to our **NOVELTY MIXED** which is in a class to itself for those not interested in name varieties, yet who desire fine and unusual flowers over an extended period each spring. **ACTUALLY WORTH DOUBLE THE PRICE** ----- **7.00 for 100**

**REGULAR** — Commercial varieties, mainly those listed by seed stores, also those used by greenhouses for forcing ----- **6.00 for 100**

**NATURALIZING** — Only varieties which are adaptable to compete with nature in the wild state. Mixed - White - or Yellow ----- **5.50 for 100**

## ROCKERY TYPES

Figures following each variety indicate approximate height in inches (").

## PINK VARIETIES

Ann Abbott, Antibe, Azelea, Ballet, Beauty Glow, Biaritz, Bundoran, Cameo, Cannes, Capt. Kidd, Carmoa, C E Bailey, Champagne, Charis, Coral Island, Coralie, Daring, Dunloe, Dunloy, Fanny Curry, Forever Amber, Foyle, Igloo, Ischia, Kenmare, La Tendress, Lady Bee, Lady Bird, Lisbreen, Loreli, Louise de Coligny, Lovenest, Martha Clarke, Menton, Mrs. R. O. Backhouse, Osbert Sitwell, Pink Beauty, Pink Blush, Pink Diamond, Pink Fancy, Pink Favorite, Pink Gem, Pink Glory, Pink of Dawn, Pink Rim, Pink Select, Pink-a-Dell, Pinkeen, Pinocchio, Promisso, Rendlesham Rose, Riva, Rosabella, Rose of Tralee, Rosa van Lima, Rosegarland, Rosy Diamond, Rosy Pink, Rosy Sunrise, Rosy Trumpet, Saskia, Shantung, Siam, Tidbit, Tintoretto, Tropic, Wild Rose, Windswept, and Winkie.

## PLANTING INSTRUCTIONS FOR DAFFODILS

The main requirement for success is a well drained soil. They are not happy in a wet spot where water will stand. Any good garden soil is ideal. Cow manure mixed in the soil at, or preferably before planting time, is ideal and will produce blooms and bulbs of unbelievable size. Bone meal is the only safe substitute to use at planting time. A top dressing of stable manure is always helpful during the winter months, serving also as a mulch. In the Middle Atlantic states plant bulbs deep enough so the neck of the bulb is covered with 3 or 4 inches of earth after the ground has settled. In the more Northern states 4 or 5 inches is desirable, while in the Southern states 2 or 3 inches is sufficient. **Early** planting is advisable so that the root system can develop before cold weather sets in. All questions pertaining to daffodils cheerfully answered.

### FALL BLOOMING BULBS

Shipped by us in June **ONLY** and should be planted immediately. Usually available in Seed Stores during October. Planted that late their chance of survival, especially in the north, is slim. Large plantings are to be seen at Colonial Williamsburg.

**STERNBERGIA LUTEA** — Large bright yellow crocus like flowers on 6 to 8 inch stems appear in mid September. \$3.00 per dozen.

**LYCORIS RADIATA** (Red Spider Lily) — Large circular clusters of bright red flowers on 2 foot spikes appear almost over night in mid September. A long lasting beautiful cut flower for the house, or a stunning item in the garden. The foliage appears in October and is a welcome spot of deep green in the garden all winter, disappearing in the spring. \$3.50 per dozen.

Both these items resent transplanting, especially if done at the wrong time, but will increase rapidly if left undisturbed. Radiata is especially touchy and care must be taken when digging not to break the thick fleshy roots which are never dormant, and take a year to replace if broken.

Allow 50 cents for postage unless order amounts to \$5.00 or over.

### BUSHEL BARGAINS

If not on our mailing list write for **DAFFODILS ON PARADE** in July, a descriptive list of over 400 varieties, also comments on the 1952 blooming season; we will then have completed digging and know what we can offer in quantity by the bushel, as well as our **SPECIAL NAME COLLECTIONS**.

**LABELS FOR DAFFODIL PLANTINGS.** We have what we consider the **IDEAL** label. The 3½ by 1 inch zinc name plate has 4 holes through which the two 12 inch aluminum wire legs are inserted. The name plate can never come loose. If names are written on with weatherproof pencil they remain legible for at least 2 years.

Price per doz. postpaid ----- \$1.50

# REVISED SYSTEM FOR THE CLASSIFICATION OF DAFFIDOLS

Effective on and after 1 January, 1950.

i) "Colored" means yellow or some color other than white.

(ii) "White" means white or whitish.

(iii) The length of a perianth segment is the extreme length measured on the inside from its junction with the corona along the midrib to the extreme tip. The length of the corona is the extreme length measured from its junction with the perianth to the end of its furthest extension when the edge is flattened out.

**DIVISION I.** Trumpet Narcissi of Garden Origin. One flower to a stem; Trumpet or Corona as long or longer than the perianth segments.

(a) Perianth colored; Corona colored, not paler than perianth.

(b) Perianth white; Corona colored. (c) Perianth white; Corona white, not paler than perianth. (d) Any color combination not falling into a, b or c.

**DIVISION II** Large cupped Narcissi of Garden Origin. One flower to a stem; Cup or Corona more than one third, but less than equal the length of the perianth segments.

(a) Perianth colored; Corona colored, not paler than perianth.

(b) Perianth white; Corona colored. (c) Perianth white; Corona white, not paler than perianth. (d) Any color combination not falling into a, b or c.

**DIVISION III.** Small-Cupped Narcissi of Garden Origin. One flower to a stem; Cup or Corona not more than one third the length of perianth segments.

(a) Perianth colored; Corona colored, not paler than perianth.

(b) Perianth white; Corona colored. (c) Perianth white; Corona white, not paler than perianth. (d) Any color combination not falling into a, b or c.

**DIVISION IV.** Double Narcissi of Garden Origin. Double flowers.

**DIVISION V.** Triandrus Narcissi of Garden origin. Characteristics of Triandrus clearly evident. (a) Cup or corona not less than two thirds the length of the perianth segments. (b) Cup or corona less than two thirds the length of the perianth segments.

**DIVISION VI.** Cyclamineus Narcissi of Garden origin. Characteristics of cyclamineus clearly evident. (a) Cup or corona not less than two thirds the length of the perianth segments. (b) Cup or corona less than two thirds the length of the perianth segments.

**DIVISION VII.** Jonquilla Narcissi of Garden Origin. Characteristics of any of the Jonquilla group clearly evident. (a) Cup or corona not less than two thirds the length of the perianth segments. (b) Cup or corona less than two thirds the length of the perianth segments.

**DIVISION VIII.** Tazetta (Poetaz) Narcissi of Garden Origin. Characteristics of any Tazetta group clearly evident.

**DIVISION IX.** Poeticus Narcissi of Garden origin. Characteristics of the Poeticus group without admixture of any other.

**DIVISION X.** Species and Wild Forms and Hybrids. All species and wild, or reputedly wild, forms and hybrids.

**DIVISION XI.** Miscellaneous Narcissi. All Narcissi not falling into any of the foregoing Divisions.
